## **ROCK ISLAND CITY COUNCIL TO DETERMINE GOALS IN ANNUAL PLANNING SESSION ON SEPTEMBER 24-25 AT SOUTHWEST BRANCH LIBRARY.**

The Rock Island City Council will meet at the Southwest Branch Library on September 24-25, 2004 for its annual planning session to determine goals for the 2005-2006 Fiscal Year. Facilitator for the event is Lyle Sumek of Lyle Sumek Associates, Inc.

During the planning session, the City Council will establish a vision statement, goals and targets for the coming year. This process will help guide their policy-making during the months ahead and give the staff clear direction.

This day and one-half session has been an annual tradition for the City of Rock Island for many years. In addition to helping the elected officials determine their priorities, it also helps build teamwork among the Mayor, City Council and staff. This improves the civility and level of governance in our city and will help to make sure Rock Island continues to be a good place to live in the years ahead.
