City Announces Improved Website Event Calendar

District events, library programs, commission meetings, public hearings – there is always so much happening in Rock Island! Modifications were recently made to the City's website [calendar](#) to improve community access to public meeting information and community-wide events.

The new calendar displays information faster, presents all events occurring in a one-month period, and allows users to view events by category including : *city business*, *community events*, or *all events*. Simply select a month, year, and category to retrieve the information you are seeking. The Calendar also includes links to other community calendars including the Rock Island-Milan School District, the Rock Island Public Library, the District of Rock Island, and the Quad City Convention and Visitor's Bureau.

The City [Event Calendar](#) is an excellent resource for information about regular and special city meetings and gives access to minutes and agendas of public meetings. You can also learn about community events happening in Rock Island including parades, festivals, library events, and more!

If your Rock Island organization has an event to add to the Calendar, e-mail the webmaster at webmail@rigov.org.
