City Seeks Feedback on Armory Park Concepts

With the planned relocation of Jumer's Casino Rock Island, the City is interested in what you think should be done to the existing levee, parking lot, and armory currently occupied by Jumers.

Schreiber Anderson Associates has prepared three concepts that identify different features that could be developed in this area. Of these concepts, the City wants to know what features you like, dislike, or if you have additional ideas.

Also please note that the features illustrated for each concept may be interchanged – so you can mix-and match among the three.

- **Concept 1: Naturalized Edge** [Naturalized Edge Photo 1](#)
