Downtown Neighborhood Association to be Established

February 11, 2008

Renaissance Rock Island is working with the City of Rock Island, Community Caring Conference, and local residents to develop a Downtown Neighborhood Association. This effort is part of the [Downtown Strategic Plan](#).

The purpose of the Neighborhood Association is to bring together downtown residents so they have an active voice in understanding needs, addressing downtown living concerns, and enhancing the quality of life.

Informational meetings are being held throughout the downtown area to further explain what the Association involves and to identify interested individuals. Downtown residents are welcome to attend any of these informational meetings:
